

SA002R UNDERGROUND SAFETY REFRESHER SPECIFICATION

Introduction

This accreditation allows learners to refresh and re-test their knowledge, skills and understanding of the hazards and potential risks involved in working safely on or in proximity to underground structures and operational buildings

Purpose

Prepare for further learning or training and/or develop knowledge and/or skills in a subject area

Accreditation

Industry accreditation certified by Smart Awards

Learning Outcomes

- Be able to work safely
- Be able to carry out gas testing safely
- Be able to demonstrate safe methods of testing for lifting covers before working underground
- Know relevant health and safety legislation and industry good practice
- Know the hazards of working in underground chambers or structures
- Know how to carry out cover lifting safely

Pre- requisite

This accreditation is available to anyone over the age of 16 who is capable of reaching the required standard. There are no barriers that restrict access or progression thereby promoting equal opportunity. It is expected however that learners will have a level of literacy adequate to cope with the assessment.

Expectations at level 2

Achievement reflects ability to select and use relevant knowledge, ideas, skills and procedures to complete well-defined tasks and address straightforward problems. It includes taking responsibility for completing tasks and procedures and exercising autonomy and judgement subject to overall direction or guidance.
